SUMMARY

B.Sc Computer Technology graduate with a CGPA of 8.8 and practical exposure to AWS Cloud, Python, MySQL, Power BI, and web technologies. Completed a training-based AWS Cloud internship with exposure to EC2, S3, IAM, and VPC. Developed academic projects using Python, Machine Learning, MySQL. Seeking an entry-level opportunity in software development, cloud support, or data analytics.

TECHNICAL SKILLS

Programming: Python, Java (Basic)

Web Technologies: HTML, CSS, JavaScript (Basic)

Database: MySQL, CRUD Operations

Cloud: AWS, EC2, S3, IAM, VPC, Cloud Computing, Cloud Infrastructure, Cloud Architecture.

Data Analytics: Microsoft Excel, Power BI, Data Visualization, Data Modelling

Machine Learning: Decision Tree, Random Forest

Tools: Microsoft Word, Microsoft PowerPoint

WORK HISTORY

Cloud AWS Trainee | Career Ladder | April 2025 – May 2025

- Completed a training-based internship focused on AWS Cloud and cloud infrastructure.
- Gained practical exposure to **AWS EC2, S3, IAM, and VPC** through guided 90% of training and exercises.
- Developed understanding of AWS architecture, cloud security, scalability, and resource management.
- Applied foundational knowledge of cloud computing and AWS infrastructure through hands-on training activities.

PROJECTS

STUDENT ACADEMIC PERFORMANCE PREDICTION USING MACHINE LEARNING

- Developed a Python-based machine learning application to analyze student academic data and predict academic performance.
- Applied **Decision Tree and Random Forest algorithms** to build prediction models and analyze patterns in student data.
- Integrated **MySQL** for storing, managing, and retrieving student academic information.
- Designed a GUI-based interface for interacting with the prediction system.
- Used **Python** for data processing, model implementation, and database connectivity.

2-TIER AND 3-TIER ARCHITECTURE

- Designed and developed applications demonstrating **2-tier client-server and 3-tier application** architectures.
- Implemented direct client-server communication in the 2-tier architecture and a middleware layer in the 3-tier architecture.
- Used PHP, MySQL, and Apache Server for application development.
- Worked with database connectivity, **CRUD operations**, request handling, and data flow across application layers.

EDUCATION

PSG College of Arts & Science, Coimbatore

B.Sc Computer Technology | May 2023 – May 2026 | CGPA: 8.8

PSG Sarvajana Higher Secondary School, Coimbatore

Higher Secondary Education | June 2022 – March 2023 | 89%

CERTIFICATIONS

Web Designing — PSG College of Arts & Science

Introduction to Python — Alison

Master Microsoft Power BI — Alison

Effective Writing — NPTEL

CONFERENCE PRESENTATION

Student Performance Analysis and Prediction Using Machine Learning and Visual Analytics — International Multidisciplinary Conference on AI-Driven Sustainability in Science & Technology, Management and Humanities | February 2026 | Role: Paper Presenter

LANGUAGES

English, Tamil, Malayalam
