EDUCATION

B.Sc Computer Technology

PSG College of Arts & Science, Coimbatore.

May 2023 – May 2026

(CGPA – 8.8)

12th - Higher Secondary

Education

PSG Sarvajana Hr Sec School, Coimbatore.

June 2022 – Mar 2023(89%)

10th - Secondary Education

PSG Sarvajana Hr Sec School, Coimbatore.

June 2021 - Mar 2022

GOPIKA MANIKANDAN

SUMMARY

Motivated and detail-oriented Computer Technology graduate with a strong academic background and a passion for technology. Quick learner with good problem-solving and communication skills. Adaptable, responsible, and eager to learn and contribute to organizational growth.

TECHNICAL SKILLS

- **Microsoft Office:** MS Excel, MS Word, MS PowerPoint
- **Programming:** Python, Java(Basic)
- **Web Technologies:** HTML, CSS, JavaScript(Basic)
- **Database:** MySQL
- **Cloud:** AWS.

INTERNSHIP

Role: Cloud AWS Trainee

APRIL 2025 - MAY 2025

Company: Career Ladder

- Completed a training-based internship in **AWS** Cloud based platform.
- Gained Practical exposure to Cloud infrastructure, core AWS services through guided training and lab exercise.
- Worked with **EC2, S3, IAM, VPC** to understand cloud-based resources and services.
- Learned the fundamentals of Cloud Computing, AWS architecture, and cloud-based infrastructure.
- Developed a strong understanding of cloud architecture, security, scalability, and resource management.

SKILLS

- Time management
- Adaptability
- Teamwork
- Problem-solving
- Interpersonal skills
- Attention to detail

AREA OF INTEREST

- Cloud Computing(**AWS**)
- Software Development
- Database Management System
- Data Analyst
- Admin

CERTIFICATIONS

- Web Designing, PSG CAS
- Introduction to Python, Alison
- Effective Writing, NPTEL

DATA ANALYTICS

- Microsoft Excel
- Power BI
- Data Visualization
- Data modelling

LANGUAGES

- English
- Malayalam
- Tamil

Title: 2-Tier Architecture And 3-Tier Architecture

- Designed and developed applications to demonstrate 2-tier (client-server) and 3-tier (presentation, logic, data) architectures.
- Implemented direct client-server communication in 2-tier, and introduced a middleware layer in 3-tier for improved scalability and maintainability.
- Technologies used include PHP, MySQL, and Apache Server.
- Gained practical understanding of database connectivity, CRUD operations, request handling, and data flow across different application layers.

PROJECT: Student Academic Performance Prediction Using Machine Learning

- Developed a **Python-based machine learning application** to analyze student academic data and predict their academic performance.
- Applied **Decision Tree and Random Forest algorithms** to build the prediction model and analyze patterns in student data.
- Integrated **MySQL database** for storing, managing, and retrieving student academic information.
- Designed a **GUI-based interface** to provide an easy and user-friendly way to interact with the prediction system.
- Used Python for data processing, model implementation, and connecting the application with the database.
- The project demonstrates the use of **machine learning and database integration** to support academic performance analysis and prediction.
